

STUFF WE LIKE

Editor note: The following businesses make concealed carry gear that USCCA members or writers recommend. These are not paid advertisements. They are personal recommendations from us to you. None of the businesses on this page have paid any money to be placed here. If you come across a product you'd like to see featured on this page, please send an email to products@usconcealedcarry.com. Prices listed in this column are current at date of publication.

DEEP CONCEAL FAST DRAW SHIRT

This professionally-styled button shirt hides a secret: those buttons don't button at all. Camouflaged by the button front, well-concealed Velcro closures provide fast, convenient access when you need it most—ideal for those who wear modern shoulder holster variants under the shirt. We found the cotton/polyester blend cool and comfortable in use, and attractive enough for everyday wear. Wash with care to prolong the Velcro's lifespan. Cost: \$45.

PISTOL WEAR TRUMP CARD

Designed for comfortable under-the-arm carry, the Trump Card provides excellent concealment while wearing professional business clothing. Its robust design, based on a fabric-covered neoprene-like material, even works well under casual clothing when moderate amounts of physical activity are expected, but don't expect to use it for heavy exercise (save that role for Pistol

Wear's PT-One or PT-Two belly bands). The front snaps make it easy to put on and off without disturbing the size adjustment provided by a well-designed hook and loop closure. Cost: \$36.

CONCEALED CARRY AND HOME DEFENSE FUNDAMENTALS INTERACTIVE BOOK FOR IPAD BY MICHAEL MARTIN

The interactive edition of *Concealed Carry and Home Defense Fundamentals* by Michael Martin provides a rich, detailed exploration into critical topics about self-defense. Readers familiar

with the dead-tree version of this book already know that they are in for a visual treat, but the interactive edition takes it to the next level with embedded video and sound files, zoomable photos, and clickable widgets that let the reader explore important concepts in more detail. Topics include developing your own personal and home protection plan, firearm basics, shooting fundamentals, legal use of force, physiology of violent encounters, dealing with the aftermath, and gear selection. It's available from the iTunes store online, and a steal at \$9.
